

AUR 2019 Faculty Index and Financial Disclosure Report

This faculty index includes an alphabetical listing of faculty (ie, Board members, committee members, program planners, presenters, and authors) with direct influence on the educational content of this program. Faculty who have or have had within the previous 12 months (or at the time the research was conducted) an affiliation with any commercial interest are noted with a ★ after their name in the program book (pages 12–127). Financial disclosure statements for individuals are reported after each individual's name in the faculty index below. All other faculty have indicated they have nothing to disclose.

Presentation numbers for authors of research papers (SS), research posters (R-), and education posters (E-) immediately follow their names in the list below. Abstracts for each presentation appear in the corresponding tabbed section in this program book (pages 55–112).
